

Owner/Operator Jim Hazelton of Hazair Agricultural Service, Orange, N.S.W. has this to say about PIPER PAWNEE 235:

"I chose Pawnee in the first place because they are designed especially for agricultural work. Now, after enjoying many hours of trouble-free operation, I can vouch for their reliability, economy, safety and handling ease. In fact, I can think of no way in which this aircraft could be improved to give better service in any sphere of agricultural work. Piper covered all that on the drawing board and the test field. Pawnee proves that you just can't beat a specialised aircraft for a specialised job."

*... and PIPER PAWNEE 235
has a lot to say for itself!*

The above is a testimony of just one of the many operators throughout Australia who have found that Pawnee measures up to the most exacting tasks — day in day out. Ask a Pawnee owner yourself — he's the man whose

life depends on Pawnee's reliability, manoeuvrability and safety engineering — and whose income depends on Pawnee's economical operation.
