

Ideal for personal, executive or club flying

Outperforming anything in its class, the all-metal Victa Airtourer marks an important step forward for Australian light aircraft users. Low running costs, superb reliability, low original outlay make the Victa Airtourer ideal for business use, yet this aircraft has the ability to serve all the purposes of pleasure flying. To Victa strength, quality, comprehensive equipment and superior performance are added the benefits of Australian manufacture and the backing of the whole resources of the Commonwealth-wide Victa Group. Complete construction and performance specifications are available from the Victa Aviation Division. Forward order placing is recommended. **Standard Price (includes overall paint scheme): Model 100 £4,250; Model 115 £4,750.**
