

A comfortable office *on wings* —  
the new executive

# HERON

DE HAVILLAND AIRCRAFT PT

Four-engine security can be had without operating a large and costly aircraft.

For the private owner or the business house there is a four-engined aircraft of moderate size and remarkable overall economy—an airliner in miniature.

The executive Heron seats eight passengers in comfort—indeed luxury—and is suitable for stages up to 1,500 miles.

Large numbers of de Havilland multi-engined executive aircraft are operating in the United States and throughout the world.
