

### PLANE PUTS OUT TOWN'S LIGHTS

Narrandera had a three and a half hours' blackout last night in unusual circumstances.

A Beaufort bomber was landing on Narrandera aerodrome about 7.30 p.m. when its radio aerial trailed over high tension wires carrying electricity to Narrandera.

This caused a short circuit, and the town was plunged in darkness.

The plane caught fire and was destroyed.

The two occupants escaped unhurt.
